Hi Maurice
I also printed the attached e-mail for Helen. It has come back with the following comments:

Kris/Maurice, 12-13 May difficult - Budget week. I think program guidelines is a sensible approach and need to start with the program logic. Happy for thoughts to be developed further and then we should discuss.

cheers
Kris

Helen,
Please see below email from Kris re secretariat review, our current understanding from relayed advice following exec's meeting with the PSO and MO and a proposal below to move into program areas and therefore a need to develop program guidelines in collaboration with peaks. We seek your advice on next steps (also outlined below) so that we can communicate to Peaks and in doing so have a handling and

communication strategy.

Your guidance would be appreciated.
MC

Hi Maurice

As discussed, the Executive's meeting with the PSO and MO discussed the approach to the review of the national disability peak organisations.

s47C (deliberative processes)
