WHAT DO WE MEAN WHEN WE SAY FAMILY?

A family can be made up of anyone a person considers to be their family. Families can include children, but they may not. Family members contribute significantly to the wellbeing of each other and play essential roles in supporting each other through life's transitions, stresses and celebrations.

WHAT DO WE MEAN WHEN WE SAY CONTEXT?

The context is the physical, social, cultural, economic and political environment that clients are located within. It can influence the extent to which clients' basic needs, such as stable housing and food security, are met and, in turn, can affect their ability to engage consistently and effectively with services.
