Thursday 17 May

Community Councils will be holding information sessions about the APY Regional Partnership Agreement in May. We want you to come and hear from your community, your councils and your service providers about how they will work together to improve the wellbeing of Anangu. There will be an Interpreter and the opportunity to ask questions.

Listening and planning together

Everyone has been talking about Income Management for the APY Lands. This could be something the Regional Partners could work on together.

We will also be talking about this with you at the information sessions in May.

Visiting on the same days
