

# NDIS rules engagement summary

## Management of funding rule s.44(5)

DSS March 2025

# Engagement with the disability community

The co-design and engagement work led by the NDIA helped shape this rule. Their work did not co-design the rule, but it did inform the rule. The co-design and engagement sessions ran from July to October 2024. Their focus was on plan management decisions.

The sessions discussed how the NDIA makes decisions about plan management types. They covered the risk of harm to participants if funds are spent inappropriately. They also covered how supports and safeguards can be used to reduce this risk.

Governments remain committed to codesign and consultation with the disability community. We are developing an engagement plan with the disability community. The plan will focus on the development of new NDIS rules.
